REMARKS/ARGUMENTS

The Applicant thanks the Examiner for the Office Action dated April 5, 2005.

The Applicant has amended Page 1 of the specification by adding a new paragraph entitled "Cross-Reference to Related Application". A replacement Declaration is enclosed.

Page 1 to 3 of the specification have been updated: the docket numbers have been replaced by corresponding patent application numbers/granted patent numbers. Patent application numbers have also been updated with corresponding granted patent numbers, where applicable. The Applicant submits that these amendments introduce no new matter.

The Applicant has amended Pages 62/72 to 72/72 of the drawings. The Figure numbers were incorrect and each Figure number below each drawing contained typographical errors. As a result, the Brief Description of the Drawings in the specification did not match the Figure numbers of the drawings and the errors are described in detail in the Amendments to the Drawings section above.

In response to the Election/Restriction requirement, the Applicant elects Group II for further prosecution of this application. The claims have been amended accordingly. Claims 3 (second claim 3) to 17 have been renumbered claims 4 to 18 as numbering was previously incorrect due to a typographical error.

It is respectfully submitted that all of the Examiner's objections have been successfully traversed. Accordingly, it is submitted that the application is now in condition for allowance. Reconsideration and allowance of the application is courteously solicited.

Very respectfully,

Applicants:
